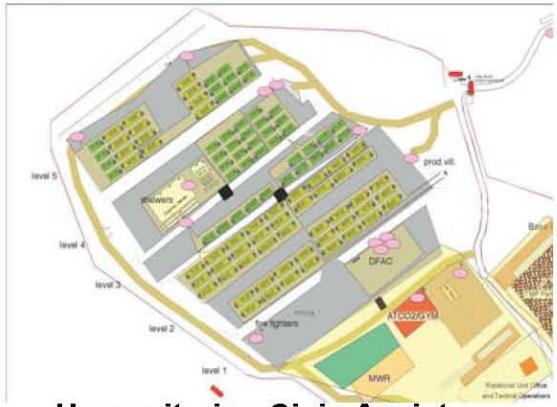
Joint Task Force-East (Forward) would like to extend an invitation to your firm to attend our Contractor's Symposium. This symposium is open to all business owners and individuals who are interested in "How to Do Business with the U.S. Government."

More specifically, we would like to educate contractors on the acquisition process and how to submit quality proposals; to develop a vendor's list for supplies, services and construction for our military program here in the Novo Selo Training Area; and to support Humanitarian and Civic Assistance (HCA) and Humanitarian Assistance (HA) projects.

We look forward to continuing strengthening our relationship, improving bilateral relations and to growing Bulgarian contractors in the service, supply and construction industry this year and in upcoming years. This conference will also help us understand the local business environment here in Bulgaria.

Novo Selo Training Area



Humanitarian Civic Assistance

We provide contracting for supplies, services and construction to:

- ***Office of Defense Cooperation Bulgaria***
- ***European Command (EUCOM)***
- ***United States Army Europe (USAREUR)***
- ***Task Force East (Forward) - Bulgaria***

Joint Task Force-East (Forward) Bulgaria
