

## THE PACK BEHIND THE WORLD WOOF TOUR.

OSCAR : 'If you re looking for something oh so cute, charming, lovable, delightful, adorable, honorable, sometimes mutty, periodically pedigree and uniquely sweet to spice up your life, then a shelter dog JUST LIKE ME wants YOU!'

A pound hound of dubious parentage, Oscar has shown himself to be the ideal candidate to perform the ambitious and challenging role as 'Top Dog' for the World Woof Tour. Since being rescued from the sceptre of euthanasia in 2004 he has displayed true 'star quality'; destined for a role far greater than that of just a couch dog! His many accomplishments include winning the coveted 'Mutt of the Year' competition, appearing on the cover of 'Footprints' magazine and more recently, numerous appearances on television's Super Sport channel. He has already travelled extensively and been accommodated in many 'no dogs allowed' places as a direct result of his engaging personality and indifferent, yet appealing looks!

JOANNE LEFSON : 'This Tour is dedicated to all the shelter dogs that have walked into my home, warmed my heart, enriched my life and inspired my life s calling'.

Joanne has grown up with adopted dogs since the day she was a puppy. She obtained a BSc in Wildlife and Fisheries Science (Texas A&M University) and later married a veterinarian from San Diego. Upon returning to South Africa, she secured a role as a presenter for woman's golf on Super Sport, (a position which she has successfully undertaken for more than 3 years) and she also worked as a columnist for 'Complete Golfer' magazine over the last 4 years. While a career in professional golf has taken her swinging all over the world, her love and passion for animals has always been close to her heart. Most recently, she created a sanctuary for old and sick donkeys in Northern India. With the help of the mutt in her life, the World Woof Tour will be the platform on which she will create a passionate, global awareness campaign focused on getting loving homes going to the dogs..
